

**INTERNATIONAL UNION OF OPERATING ENGINEERS
LOCAL 139 SKILL IMPROVEMENT & APPRENTICESHIP**

COURSE SCHEDULE 2024 - 2025

TERRY MCGOWAN
S.I.A.F. CHAIRMAN
PRESIDENT/BUSINESS MANAGER

DANIEL SPERBERG
TRAINING DIRECTOR
VICE PRESIDENT

2024-2025 Course Schedule

Terry McGowan
*IUOE General Vice President
IUOE 139 President/
Business Manager
S.I.A.F Chairman*

Once again, we have experienced a season that demanded more recruitment and training of new members. And once again we are depending on our training program to accommodate the training to make sure that these new members acquire the skills necessary in order to launch their careers, hone their acquired skills and become the type of productive journey worker that makes us all proud to call them a skilled member of our organization. Whether you are an apprentice or already a journey worker, my goal is to encourage you to take the time and enroll in one or more of the many quality courses that are made available in our 2024-2025 Training Schedule. Through the support of our membership, our highly skilled training staff remain committed to meeting the needs of the continued growth of our membership to efficiently meet the needs demanded by our industry. The considerable expansion to our training facility in Coloma was approved and constructed in anticipation of the continuing growth of Local 139 and to best serve our membership by meeting the increased demand for training. The additional classrooms and advanced courses that are now offered at our state-of-the-art training center offers even more opportunities to elevate your skills within our craft. You see, as you further

your skills within the craft, the more you become a positive reflection upon our entire organization. You make it easier for your representatives at the bargaining table to make a legitimate argument with your employer as to why you deserve a pay raise. You greatly increase the odds that you and all of your co-workers will make it home safely to your families at the end of each workday. You also increase the competitiveness of your employer, which greatly enhances their ability to win additional bids which will equate to a higher union density within our geographical jurisdiction, which will lead to more work hours for you and your crew. Make no mistake, the recipe to your continued success as a member of Local 139 depends largely on self-motivation. Motivation to invest in yourself by taking the time to attend as many classes as you possibly can and learn from the team of some of the finest and most knowledgeable professionals in our industry.

Fraternally,
Terry McGowan
IUOE General Vice President
President/Business Manager, Local 139
Chairman, Skill Improvement and Apprenticeship Fund

Daniel Sperberg
*IUOE 139 Vice President
Training Director*

As another training season begins, I want to emphasize the vital role that the training available to you plays in enhancing your skills and your career as an Operating Engineer. Your dedication to training directly impacts the valuable contribution you make to the construction field. Utilizing the comprehensive training available to you will not only elevate your expertise, but also make you a more versatile and valuable asset in the industry.

Apprentices, please note that your training schedule is tailored to ensure that you have the essential tools for jobsite success. It begins with an introduction to in-demand equipment and maintenance, as well as crucial safety certifications. In your second year, you'll obtain additional safety certifications and start identifying areas of equipment you want to specialize in. By your third year, you'll have the flexibility to choose elective courses to refine your expertise. To ensure you receive fundamental skill and safety training before focusing on specialization, it's important to follow the courses in the prescribed order.

As a member of IUOE Local 139, the training available to you will always be one of your most valuable resources. I look forward to seeing you in Coloma this training season as you embrace these training opportunities, which in turn will help you become a more diversified Operating Engineer, increase the productivity of your contractor and ensure a safer work environment for everyone. Together, we will continue building a strong, productive and skilled workforce. I encourage each member to approach this training season with dedication, knowing that our collective efforts will pave the way for continued success and excellence in our field.

Fraternally,
Daniel Sperberg
IUOE 139 Vice President
S.I.A.F. Training Director

Important Information

-All courses are 8:00 AM - 4:30 PM unless otherwise stated.-

Placement in courses will be on a first-come, first-serve basis. Every attempt will be made to place you in your 1st choice. Should any course be full, you will automatically be placed as an alternate for that course. All courses are subject to change of location or cancellation due to lack of enrollment.

If you need to cancel a course, please call our office as soon as you know you won't be able to attend. This allows others an opportunity to attend training.

SITE POLICY ACKNOWLEDGEMENT:

By applying for training courses with the Wisconsin Operating Engineers Training Center, I understand that it is my responsibility to familiarize myself and comply with the policies and procedures in place to ensure the rights of all students in attendance. Site policies are available at all IUOE Local 139 offices, or you may view them any time on our website at 139training.org. I further acknowledge that it is my responsibility to keep myself updated on any changes to these policies.

APPRENTICES: Please note registration policy changes on Page 5

DRESS CODE & PERSONAL PROTECTIVE EQUIPMENT:

All members using the Training Center must wear shirts with sleeves (no tank tops or sleeveless shirts), full length work pants (no sweat pants, shorts, or pajamas) and no sandals or open-toed shoes.

OSHA regulation work clothes and PPE (hard hat, gloves, work boots, etc.) are required for all field training. You will also need appropriate cold weather gear; all courses include hands-on exercises or demonstrations that may require outdoor training.

PER DIEM FOR MEMBERS OF LOCAL 139:

Members of Local 139 in good standing are eligible to receive \$20/day per diem FOR COURSES HELD AT THE JOSEPH J. GOETZ TRAINING CENTER IN COLOMA. Per Diem will be paid only for full days of attendance. It is NOT paid for 1, 2 or 3 day courses. Per Diem is NOT paid for make-up days or days the individual is late or leaves early.

All Local 139 Union Membership obligations, including dues, must be current to be eligible to attend training.

Attention Apprentices

A total of 400 hours of related instruction is required for your apprenticeship, as well as an 8 hour Transition to Trainer course. Please be aware that you must complete at least 160 hours of related instruction per academic year (June 1, 2024— May 31, 2025) or your apprenticeship may be cancelled by the State Bureau of Apprenticeship. **Courses for each year as listed below must be completed before you are eligible to schedule any additional training. Additional training courses must have pre-approval.**

***Please note the 24-25 registration policy changes on the next page.**

Required 1st Year Courses

- *Basic Equipment (80 Hours)*
- *Basic Maintenance (40 Hours)*
- *Construction Regulations (40 Hours)*

Required 2nd Year Courses

- *Basic Grade (40 Hours)*
- *40-Hour Hazmat (40 Hours)*
- *Your choice of any course(s) totaling 80 hours. Can include but not limited to: Dozer, Lattice Crane, Advanced Grade, Load Charts, Welding, etc.*
- *Remember to maintain all safety certifications (Hazmat, MSHA, CPR, etc.)*

Required 3rd Year Courses

80 Hour Elective

- *Your choice of any course(s) totaling 80 hours. Can include but not limited to: Dozer, Lattice Crane, Advanced Grade, Load Charts, Welding, CDL, etc.*
- *Remember to maintain all safety certifications (Hazmat, MSHA, CPR, etc.)*

Course fees for the 2024-2025 training season:

40 hour course: \$200.00

80 hour course: \$350.00

Transition to Trainer: \$35.00

ALL COURSE FEES ARE COLLECTED ON THE FIRST DAY OF THE COURSE.

These fees may be reimbursable through the ACAP grant, you will receive information for this by email from the DWD. Please save all course receipts to submit for this reimbursement.

Course Registration

2024-2025 COURSE REGISTRATION OPENS ON

OCTOBER 1st, 2024 AT 7:00 AM

You may register for training online through the Local 139 Member Portal. To register online, set up your account on the union's website at www.iuoe139.org. Please feel free to contact our office with any questions about registering online.

You may also register by calling the Training Center office at 715-228-4911.

The registration form on pages 17-18 may also be completed and returned to our office for course registration. This form may be mailed, faxed, or emailed back to our office.

REGISTRATION WILL BE OPEN TO ALL MEMBERS ON OCTOBER 1ST WITH THE EXCEPTION OF APPRENTICES TO WHICH THE FOLLOWING REGISTRATION POLICIES WILL APPLY

***NEW 2024-2025 APPRENTICE REGISTRATION POLICIES**

Please note that the following registration policies are in effect for Apprentices for the 24-25 training season:

- Registration will open on October 1st for apprentices with 4,500 or more total hours, with registration not to exceed 400 total related instruction hours.
- Registration will open on October 7th for apprentices with 3,000-4,499 total hours, with registration not to exceed 400 total related instruction hours.
- Registration will open on October 14th for apprentices with 1,500-2,999 total hours, with registration not to exceed 320 total related instruction hours.
- Apprentices with less than 1,500 total hours should contact the Training Center directly regarding taking any additional training outside of their required courses for this training season.

These policies are in effect to ensure apprentices meet their state requirement of taking training each year of their apprenticeship and to help ensure course availability for those needing elective courses this training season. Please contact the Training Center with any questions regarding this.

Certifications & Qualifications

40 Hour Hazmat (1 Week)

This course will provide basic information needed to protect HAZWOPER Site Workers from health, physical, and biological hazards. This course meets the requirements of OSHA 29 CFR 1910.120 (Hazardous Waste Operations and Emergency Response) and OSHA 29 CFR 1910.146 (Permit Required Confined Space). Training will be a combination of both hands-on and classroom instruction. *40 hours*

Required for Registered Apprentices indentured in 2023.

Certification will need to be refreshed every 12 months.

Coloma

Mar. 31—Apr. 4, 2025

Apr. 21—Apr. 25, 2025

Apr. 28—May 2, 2025

Disaster Site Worker (1 Week)

This is a one week course that integrates the OSHA 10 Hour program for General Industry, ICS 100, and Disaster Site Worker into the overall class curriculum and is intended to provide the basic understanding of the role of skilled support workers in response to natural and man-made disasters. A key element to the learning objectives is to increase awareness of the difference between disaster sites and regular construction or demolition sites. Successful participants will be able to demonstrate a clear understanding of the Incident Command System, the proper inspection and use of an air-purifying respirator and other key points. The goal of this course is to establish a growing contingent of appropriately credentialed operating engineers who are recognized and may be called upon by emergency response organizations at all levels of government. *40 hours*

Coloma

Mar. 3—Mar. 7, 2025

Mar. 10—Mar. 14, 2025

Hazmat Refresher (1 Day)

Topics will cover the latest developments in the HAZMAT industry, as well as general construction safety.

Students must have taken the 40-hour HAZMAT prior to taking this course and must take this refresher every year to keep your HAZMAT certification current. *8 hours*

Prerequisite: Current 40 Hour Hazmat Certification

Certification will need to be refreshed every 12 months.

Entry Level Driver Training (ELDT) (1 Week)

Entry-level driver training requirements went into effect on February 7, 2022, all drivers who would like to obtain a Class A or Class B CDL for the first time or upgrade an existing Class B CDL to a Class A CDL, school bus (S), passenger (P), or hazardous materials (H) endorsement for the first time will need to successfully pass ELDT training. *40 hours*

Coloma

Oct. 28—Nov. 1, 2024

Dec. 16—Dec. 20, 2024

Jan. 13—Jan. 17, 2025

Feb. 10—Feb. 14, 2025

Mar. 10—Mar. 14, 2025

Apr. 7—Apr. 11, 2025

Specialty Training

CDL Training & Testing

You must have your Class A Commercial Driver's License Instruction Permit and your DOT Medical Examiner's Certificate before scheduling a test. A CDL road test can be scheduled by contacting Dennis Sperberg at the Joseph J. Goetz Training Center in Coloma.

Call the Training Center at (715) 228-4911.

NCCCO Testing

Call Dan Wheaton at the Training Center to receive an information packet to apply online. Please specify if it will be for Mobile Crane, Tower Crane and/or Overhead Crane.

Call the Training Center at (715) 228-4911.

OECP/NCCCO Review

This review class is designed to refresh candidates in OSHA/ASME hoisting regulations and proper use of manufactures capacity charts used in the NCCCO and OECP crane certification exam. *8 hours*

Please Note: Pre-registration is required for this course and registration closes one week prior to the date of review.

Grade, GNSS, Digital Tech. & Management Courses

Basic Grade (1 Week)

In this one week course you will be instructed in working with the engineers ruler using tenths and hundredths, how to calculate basic quantities, working with elevations, figuring cut and fill to finish grade and sub-grade. Topics also include interpreting and working with grade stakes while learning the basic grade setting and staking process. In the field you will be trained how to use lasers, eye levels, standard rods and lenker rods. You will also get a basic introduction to plan reading. *40 hours*

Required for Registered Apprentices indentured in 2023.

Coloma

Part 107 UAV Test Preparation (4 Days)

This will be a comprehensive look at the use and versatility of Drones on today's construction projects. After completing this course, you will be able to prepare for your Part 107 Commercial Drone Pilot's License Test. The primary focus will be on instructing our Operating Engineers in the Federal Aviation Administration (FAA) rules and regulations for the safe and responsible use of a sUAS/UAV in the National Airspace System (NAS), according to the guidelines of the PART 107 Remote Pilot Certification Standard. We will discuss drones in construction, how this emerging and growing sector is influencing the jobsite and safety. *32 hours*

Coloma

Feb. 24—Feb. 27, 2025

Mar. 17—Mar. 20, 2025

Business Center—Beginner (1 Week)

This class is designed for the experienced GNSS rover or machine control operator to help identify work flow in Trimble Business Center HCE. Instruction will utilize the program to import and export data. Trainees will be exposed to data management and basic model building. *40 hours*

Coloma

Jan. 6—Jan. 10, 2025

Jan. 27—Jan. 31, 2025

Business Center—Advanced (1 Week)

This course is intended for trainees that have taken the beginner Trimble Business Center HCE course and are looking to advance their skills using Trimble Business Center. This class utilizes the latest licensed version of Trimble Business Center with full functionality. *40 hours*

Coloma

Jan. 20—Jan. 24, 2025

Feb. 17—Feb. 21, 2025

Construction Management—Foreman (1 Week)

This course will examine basic management principles from the perspective of a construction foreman. Basic curriculum covered includes, but is not limited to: Mathematical Equations, Computer Skills (Word, Excel, Google Earth, GIS, Email, File Management.), Roadway Plan Interpretation/WISDOT Standard Specifications, Ethics, Communication, Production, Construction Processes and Safety. Training will consist of classroom instruction only. *40 hours*

Coloma

Jan. 13—Jan. 17, 2025

Jan. 20—Jan. 24, 2025

Advanced Grade – Machine Control (1 Week)

With training exclusively dedicated to the corresponding GPS Topcon or Trimble machine control, instruction will include offsetting grade horizontally and vertically from surfaces. You can also expect to create simple designs using the control box as well as recording data for office use. *40 hours*

Apprentices please note: Basic Grade is required prior to taking this course.

Previous Dozer experience is required prior to taking this course.

Crane Courses

Basic Telescopic Crane (2 Weeks)

This course incorporates basic craning topics: terms and definitions, principles of operation, maintenance, inspection, set-up, operational safety. We have a great fleet of cranes ranging in size and an abundance of practical exercises with seat time. *80 hours*

Load Charts and Regulations is recommended prior to taking this course.

Lattice Crane (2 Weeks)

This training will present the student with crane basics utilizing lattice type machines. There will be a combination of both the older “friction” type cranes as well as the newer “hydraulic” type lattice crane. A strong emphasis will be placed on maintenance, inspection, and operational safety. Students will also participate in the assembly and/or disassembly of cranes. *80 hours*

Load Charts and Regulations is recommended prior to taking this course.

Mar. 17—Mar. 28, 2025

Mar. 31—Apr. 11, 2025

Apr. 21— May 2, 2025

Excavating – Advanced (1 Week)

This course will be offered to operators with *previous experience* in excavating. Students will study the concepts of efficient cycle times, truck loading, mass excavations, undercutting roadways, foundation excavations and sewer and water pipe installation to include proper use of a trench box. *40 hours*

Coloma

Jan. 6—Jan. 10, 2025

Mar. 3—Mar. 7, 2025

Mar. 10—Mar. 14, 2025

Mar. 17—Mar. 21, 2025

Mar. 24—Mar. 28, 2025

Asphalt Paving (2 Weeks)

Basic paving techniques will be discussed as well as working with some of the automatic controls on the pavers. *80 hours*

Coloma

Feb. 17—Feb. 28, 2025

Mar. 3—Mar. 14, 2025

Mar. 17—Mar. 28, 2025

Mar. 31—Apr. 11, 2025

Material Crushing (1 Week)

In this course, you will be exposed to the basic operations of a portable impact crusher and how to perform crushing operations safely. You will also be trained on setup, troubleshooting, and maintenance of the crusher. The objective of this course will be to learn safe and effective use of a portable impact crusher along with proper maintenance. *40 hours*

Coloma

Mar. 3—Mar. 7, 2025

Demolition (1 Week)

Discover how to recognize hazardous material, locate utilities, and read work plans while covering site specific safety necessary to razing a structure. You will prepare and dismantle structures of varying materials (concrete, steel, wood, etc.) to manageable sizes for disposal or redistribution. *40 hours*

Coloma

Feb. 24—Feb. 28, 2025

Forestry Training (1 Week)

Introduces students to the Department of Transportation's 201 Clearing and Grubbing and 202 Roadside Clearing Standard Specifications. These Specifications include cutting, removal and disposal of trees, brush, roots and stumps within the clearing limits of a jobsite. Curriculum covered will include equipment maintenance, safety, mathematical concepts, conservational methods and operational techniques. Specific operational techniques may include tree felling, forestry mulching, chipping, grinding, transportation and stump removal. *40 hours*

Coloma

Apr. 7—Apr. 11, 2025

Vermeer PD-10 Pile/Post Driver (2 Days)

This course will go through basics in set up and operation of the Vermeer PD-10 Pile Driver that is used in the solar field industry. Instruction will be given on safe operations. A GNSS automation system will also be included. *16 hours*

Coloma

Jan. 7—Jan. 8, 2025

Jan. 21—Jan. 22, 2025

Feb. 4—Feb. 5, 2025

Feb. 18—Feb. 19, 2025

Mar. 4—Mar. 5, 2025

Mar. 18—Mar. 19, 2025

Basic Dozer (2 Weeks)

You can expect to be introduced to safe basic operating techniques, utilizing small dozers (up to D6 size) in this course. Instruction includes identifying different job site conditions, hazards, and how to react to these conditions using general industry safety practices. *80 hours*

Coloma

Oct. 28—Nov. 8, 2024

Nov. 11—Nov. 22, 2024

Dec. 2—Dec. 13, 2024

Jan. 6—Jan. 17, 2025

Jan. 13—Jan. 24, 2025

Jan. 20—Jan. 31, 2025

Jan. 27—Feb. 7, 2025

Feb. 3—Feb. 14, 2025

Feb. 10—Feb. 21, 2025

Feb. 17—Feb. 28, 2025

Apr. 21—May 2, 2025

Dozer – Advanced (1 Week)

This course will be offered to operators with previous experience in Dozer. You will study advanced techniques of “finish” dozer work such as sloping, gravel spreading, curb grading, and ditching. *40 hours*

Coloma

Jan. 6—Jan. 10, 2025

Mar. 3—Mar. 7, 2025

Mar. 10—Mar. 14, 2025

Mar. 17—Mar. 21, 2025

Mar. 24—Mar. 28, 2025

Mar. 31—Apr. 4, 2025

Apr. 7—Apr. 11, 2025

Basic Scraper (2 Weeks)

Introduces operators to basic scraper applications using single engine scrapers, push tractors and related support equipment. Instruction will include equipment controls, safe operation, jobsite navigation and key communication processes. *80 hours*

Coloma

Feb. 17—Feb. 28, 2025

Mar. 3—Mar. 14, 2025

Mar. 17—Mar. 28, 2025

Scraper – Advanced (1 Week)

This course is offered to operators with previous experience in scraper operation. Course emphasis will include advanced techniques in sloping, stockpiling and cut and fill operations using single and double engine scrapers. Instruction will also include push tractor and support equipment operations associated with scraper applications. *40 hours*

Coloma

Mar. 31—Apr. 4, 2025

Apr. 7—Apr. 11, 2025

Directional Drilling (2 Weeks)

Students will receive instruction in underground directional boring. There will be extensive hands-on training in this course in addition to Training and Knowledge modules associated with Midwest Energy Association's (MEA) Operator Qualification. *80 hours*

Coloma

Jan. 6—Jan. 17, 2025

Jan. 20—Jan. 31, 2025

Feb. 3—Feb. 14, 2025

Feb. 17—Feb. 28, 2025

Basic Motor Grader (2 Weeks)

This is a course for the beginner and advanced operator alike. Instruction will include basic motor grader operation, including dirt and gravel techniques. Curriculum will focus on field operations; including haul roads, roundabouts, curb work, and blading to grade with automated blade control. *80 hours*

Coloma

Jan. 6—Jan. 17, 2025

Jan. 20—Jan. 31, 2025

Feb. 3—Feb. 14, 2025

Feb. 17—Feb. 28, 2025

Motor Grader – Advanced (1 Week)

This course can be tailored for any level of experience or geared to provide evaluations for more experienced operators. Topics covered include safety aspects, preventive maintenance, operating techniques, and proper procedures for using motor graders in both classroom and hands-on simulations. *40 hours*

Coloma

Mar. 3—Mar. 7, 2025

Mar. 10—Mar. 14, 2025

Mar. 17—Mar. 21, 2025

Mar. 24—Mar. 28, 2025

Mar. 31—Apr. 4, 2025

Apr. 7—Apr. 11, 2025

Concrete Pumping (1 Week)

Topics included in this course consist of general requirements, PPE, examining a pre-pour plan, selecting the right size and type of equipment required to make the pour, the concrete pumping system, and where to locate the pump in the safest position. *40 hours*

Coloma

Mar. 10—Mar. 14, 2025

Concrete Paving (1 Week)

This course includes general requirements, operation, paving procedures and processes, safety practices, and maintenance associated with concrete pavers. *40 hours*

Coloma

Mar. 17—Mar. 21, 2025

Maintenance Courses

Basic Maintenance (1 Week)

This course will introduce students to basic mobile equipment maintenance. Students will be instructed in maintaining engines, hydraulics, electrical systems, lubricants and machine undercarriage with an emphasis on the use of operator manual maintenance sections. Shop and field maintenance will be daily topics as well as proper use and identification of hand tools and shop tooling.
40 hours

Required for Registered Apprentices indentured in 2024.

Adv. Electrical/Hydraulic Maintenance (1 Week)

This course will explore comprehensive techniques for troubleshooting modern control systems on later model equipment such as components, schematics, digital multi-meter use and applied theory. *40 hours*

Coloma

Mar. 24—Mar. 28, 2025

Prerequisite: Experience & knowledge of basic and electrical hydraulic systems.

Welding Basics (1 Week)

Instruction focuses on welding safety, equipment set-up and operation, electrode selection, gas selection and basic metallurgy when welding steel using both stick and wire feed methods. Repair welding with torch set-up and operation, air arc operation, and plasma cutting are also emphasized.

40 hours
